WASHINGTON.

NEWS AT THE CAPITAL CITY.

The Case of Venezuela. National Associated Press to the Star.

WASHINGTON, April 13 .- The Government has not yet decided as to what action will be taken in regard to he extraordinary conduct of the Venezuelan Government in sending Mr. Russell his passports. The disposition entertained, in view of all the circumstances, is to send Senor Don Juan B. Daila Costa his passports. This action will not necessarily involve the two countries in war, but would simply be a measure of retailation pending as investigation of the cause that led to the action of the Venezuelan Government.

The Foreign Ministers at Washington are said to be preparing for their summer migration. The Spanish Minister. Senor Mantilla, goes to New York. The British Minister is to go to England, and will leave the Legation in charge of the First Secretary, Hon. Francis Plunkett. The Russian Minister, Mr. Shishkin, will spend the summer to Washington, the prospect of war between Russia and Turkey, with the chance of other complications, making it necessary for him to remain at the seat of government. It would appear from this that Russia expects to have important questions, which will give Mr. Evaris a full exercise for his distance of the seat of the

our diplomatic representatives in Europe as to the progress of complications growing out of the Eastern question.

Packard's Friends Weakening. NEW YORK, April 13.—The Graphic's Washington special says that Chamberlain's surrender has sensibly weakened the Louisiana Republicans here, and they now seem to have no hope of Packard's being able to sustain nimself. If the Commission fails to accomplish anything, as no doubt will be the case, the troops will be withdrawn, and Packard will yield for lack of strength to sustain himself.

Work of Clearing Away the Debris Going On.

The Death Roll Cannot Yet be Made Up.

National Associated Press to the Star:

ST. Louis, April 13.-The work of searching for the bodies of the missing commenced, this morning in earnest. The force is large, and the debris is cool enough to admit of being cleared away. Of the two hundred employes fifty-four were still missing at 9 o'clock this morning. The hotel register for the day of the fire is burned so that no accurate list of the missing guests can be made up. The search of the ruins must alone be depended upon for the awful revelation of the number of the dead.

The finding of the dead body of an in fant indicates that both its parents perished, as no mention has been made of the loss of a child of that age.

The workmen are turning the debris over from the bottom. The -hotel occupied a full block, and it will be impossible to complete the search in less than a week or ten days.

LONDON, April 13.—The Post says the Turkish circular was communicated to Lord Derby yesterday. It does not follow because the Porte declines to obey low because the Porte declines to obey a peremptory summons that all hope of peace is lost. The suggestion has been made by one of the great States whose interests are most hearly touched by the threatened conflict that the signatories of the protocol should note that both Russia and Turkey have declared their readiness to disarm. It is absurd that the peace of Europe should be endangered for the sake of some vague point of honor. We have heard a good deal of suffering something for the cause point of honor. We have heard a good deal of suffering something for the cause of international arbitration.
